PROJECTS

1. Jewellery Sales & Stock Tracker

Real-World Project:

Collaborated on frontend development for a jewellery shop application to manage daily sales entries, stock records and business reports.

- Built responsive frontend UI using HTML, CSS, JavaScript (ES6+) and React.js.
- Developed pages for daily entries, stock tracking and sales analysis.
- Added filtering, responsive tables and downloadable report features.
- Designed responsive and user-friendly interfaces for daily shop operations.
- Project URL: sringar-frontend.vercel.app

2. Online News Portal

Class Project:

News platforms need a system to publish and manage news in real-time with categories.

- Built a responsive news portal where admins can add, update and manage news.
- Users can browse news by categories and view details.
- Implemented features like search, categories and latest news.
- Focused on clean UI, performance and smooth user experience.
- Handled real-life workflow of content management.

3. Smart Agriculture Monitoring System

College Project:

Farmers need a digital solution to manage their farm data, crops and sales records.

- Built a system to manage farmers, crops, and sales in one place.
- Added features for adding records, updating information and tracking data.
- Designed a simple and easy to use interface for better usability.
- Focused on real-world needs of farmers and daily operations.
- This project helped in understanding full workflow of an application.

EDUCATION

Bachelor of Computer Application (BCA) Savitribai Phule Pune University (SPPU)	2022 – 2025	CGPA: 7.17
HSC Pemraj Sarda College	2020 – 2021	
SSC Dnyansarita Vidyalaya	2018 – 2019	

SOFT SKILLS

- Teamwork
- Problem Solving
- Time Management
- Adaptability
- Quick Learner
